DAWSON WILL BE HERE EVE NOVEMBER 5

Congressman J. Will Taylor, Speaker Here Tuesday Night at Noetown will Introduce G. O. P. Nominee

TAYLOR GIVEN GREAT OVATION WHILE HERE

Charles I. Dawson, Republican nominee for governor, will speak in Middlesboro, at the Mearing Theatre, the evening of November 5, on the eve of the election, it was announced from Republican headquarters today, and at this same time J. Will Taylor of LaFollette, Tennessee congressman, who has spoken here to enthusiastic audiences the past two evenings, will be present again and will introduce Mr. Dawson.

Congressman Taylor spoke at Noetown last night in the new home of Wes Gordon to an enthusiastic audience of about three hundred whom the bad weather could not keep in. Dr. Schultz introduced him, mentioning the strong support which he was receiving for next vice-president and assuring him that the Eleventh District of Kentucky would give him its undivided support. There are a great many persons from Eastern Tennessee in this section, and this remark concerning their favorite brought much applause.

The speaker discussed the road problem in detail, telling what it meant to the people of this section if Dawson is elected and contrasting with this the fact that the Democrats had never made any road improvements and that none need be expected from them. He declared that the Democrats had already started a fight to keep roads from this section and to prevent the letting of contracts on roads already started, like the one from Barbourville to Corbin.

Congressman Taylor flayed the Hillgeary bill which he assured the voters the Democrats were bound to enact. He told how it worked in Tennessee, where they have the same thing and every voter has to remember the name of every man on the ticket.

The speaker compared Morrow's pardon record to Stanley's declaring that the latter's showed twice as many criminal pardons. He told, too, of the schools, how 2700 in the state that, before Morrow's administration could nor afford teachers had been benefited, and how school commissions had been taken entirely out of politics.

Andy Wilder, the Rev. J. W. Barnwell, Gordon Turner and Robert Turner each made talks following Taylor, the entire meeting being the most enthusiastic the Republicans have held in this city this year.

Taylor Optimistic on Situation

KNOXVILLE, Oct. 25.—Indications pointing to a G. O. P. victory in the Kentucky state election November 6 are very much in evidence in the Eastern part of that state, according to Congressman J. Will Taylor of the Second Tennessee district, who returned yesterday after a two days' visit with the republican campaigners in the bluegrass state.

Congressman Taylor said that the party was staging a real fight and are hopeful of electing Chas. Dawson as Governor as well as other party candidates on the state ticket. Enthusiasm is high in the eastern part of the state, he said which means that a large republican vote will be cast in that section.

Congressman Taylor said that he agreed to go back to Kentucky during the last week of the campaign to fill further speaking engagements provided he can get away at that time. Mr. Dawson is now campaigning his way to Eastern Kentucky and will close at Middlesboro, November 5.

GARY SAYS NO FEAR FINANCIAL TROUBLE

Necessary Only for Business Men to Do Part, Co-operate with President Coolidge

By Associated Press.

NEW YORK, Oct. 25.—Elbert H. Gary, president of the U. S. Steel corporation told the American Iron and Steel Institute there was no reason to fear serious financial or commercial disturbance in the next few months if business men will do their part and co-operate with President Coolidge.

SEN. UNDERWOOD STARTS CAMPAIGN

Says U. S. is Lost in Partisan Politics, Urges Return to Ideals of the World War Period

Associated Press

DALLAS, Oct. 25.—United States Senator Underwood of Alabama in the second speech of his campaign for the Democratic presidential nomination, declared here today that America had surrendered leadership in world affairs and lost herself in partisan politics and that the plain duty ahead is to return to the great principles that guided America in the great war and have and exercise a definite governmental policy in Europe. He opened his campaign yesterday at Nocona, Tex., asserting he was going to give the South a chance to select a southern man to carry the banner of democracy.

CONTINUE TRIAL IN PARSON'S MURDER

Absence of Important Witnesses First Day Holds Up Case at Richmond

By Associated Press.

RICHMOND, Ky., Oct. 25.—A motion by the State's counsel for a continuance on the ground that absence of important witnesses precluded trial at this time was granted late Monday by Circuit Judge W. R. Shackleford and the case of Jerry Reed, negro, former convict, charged with murder in connection with the slaying in September, 1920, of Miss Laura Parson, Pine Mountain Settlement School teacher, was continued to February 18. Reed was held without bond in jail here.

Judge Shackleford, in taking under advisement the motion for continuance entered by State's Attorney W. J. Baxter, declared that it would be unfortunate if the absence of witnesses prevented hearing of the trial at this term of court, among several reasons being that of the heavy expense to the State.

A call of witnesses had established that seven material witnesses for the State and thirty-six for the defense were absent. The court directed that fines of $20 each be entered against A. B. Broughton of Bell County and Salana Fields, James Farley and James Day of Harlan County, together with forfeiture of their bonds, and instructed J. H. Blair, Sheriff of Harlan County, to see that each furnished a bond of $500 to answer the next summons as a witness. Similar fines were imposed and attachments issued for Joseph Day, Mrs. Mary Day, John Metcalfe and Jesse Saylor, all of Harlan County, for failure to answer subpoenas.

C. C. Wallace, defense counsel, advised Judge Shackleford that of forty defense witnesses summoned only four were present. More than thirty of the defense witnesses, Sheriff Blair said, were inmates of the State penitentiary at Frankfort, and that he was informed no order had been issued for them to be sent to Richmond to testify.

Reed's case was brought to Richmond on a change of venue from Harlan County.

LLOYD GEORGE IS IN WASHINGTON

Will Visit 3 Days With Coolidge, Wilson, Taft and Hughes—Saw Bryan Today

Associated Press

WASHINGTON, Oct. 25.—David Lloyd George arrived here today for three days' visit. He planned to see President Coolidge, former President Wilson and government officials to talk over many subjects of world concern. He will also see Secretary Hughes and Chief Justice Taft. He saw William Jennings Bryan for a few moments today. He smilingly said there was no discussion of prohibition or evolution.

LOCAL COLORED FOOTBALL TEAM TO PLAY CHATTANOOGA

The football team of the Middlesboro colored high school will play Chattanooga colored high school at the East End ball park at 2:15 Monday, October 29. The local team which defeated the Knoxville colored team on the latter's field recently is expecting a hard-fought battle with the Chattanooga team which is reputed to be the strongest in its class in the state.

SEEK DIRECT ROUTE SOUTH THROUGH HERE

Asheville Motor Club Men Say This Road Has Only 26 Bad Miles; Better and Shorter Than Western Road

WOULD HAVE ENTIRE ROUTE GOOD NEXT FALL

N. Buckner of the Asheville, N. C, Chamber of Commerce and Charles O'Connor, field manager of the Asheville Western Carolina Motor club, arrived in Middlesboro last night for several days' stay to confer with the leaders in this city on perfecting the automobile route from the Middle West to Florida through Middlesboro and Asheville, the straightest road between these points.

These men pointed out that the road is about 800 miles shorter this way than the eastern route, through Louisville, Nashville and Chattanooga. This latter route, advertised so extensively in Louisville, is not as good as the road through here right now, the men stated.

Mr. Buckner and Mr. O'Connor have just completed a two-weeks' automobile trip from Asheville, investigating the road conditions to Cincinnati, the gateway to this section. They say there are only 26 miles of really bad roads between Cincinnati and Greenville, N. C., and this compared to 65 miles of bad roads a year ago when the Asheville Motor Club started its fight. These 26 miles are in Rockcastle Laurel and Knox counties in Kentucky and Cocke county, Tennessee.

Not only is the road this way more direct by several hundred miles, for the tourists, but it is much better for Kentucky, Mr. O'Connor explained, because there is more of it in Kentucky than any other road, as it runs twice as long in the state as the Western route, thus benefiting Kentucky that much more.

Mr. O'Connor and Mr. Buckner conferred this morning with A. P. Liebig, president of the Kiwanis club and Middlesboro bankers. They will present their position at the Kiwanis club tonight and tomorrow morning they will have another meeting with representative Middlesboro citizens to work out a plan by which Asheville and Middlesboro can get a part of the tourists this fall, still more of them on their return trip next spring and with a straight road clear through by next fall, benefit to the fullest extent.

Both of the men were enthusiastic over the scenery of the mountains in this section and declared that they did not think there were any more beautiful drives any place in the United States than through this section.

REPUBLICANS SEEK CONVENTION CITY

Data Being Obtained on Available Site for 1924 National Convention

WASHINGTON, Oct. 25.—The republican national committee's sub committee appointed to consider sites for the 1924 national convention will meet in Washington, November 15 to hear representatives of various cities.

D. W. Mulvane, national committeeman from Kansas, chairman of the sub-committee, has sent out notices that all invitations be forwarded to him by November 10. They must contain information as to the capacity of the buildings in which the convention would be held; appropriate hotel capacity and rates, with assurance that the rates will not be raised during the convention period and proposals as to defraying the expenses of the convention.

The sub-committee after the hearing will formulate a report to be presented at the meeting of the full national committee in December when the convention city will be selected.

Fred W. Upham, treasurer of the national committee, and Wm. R. Wrigley of Chicago arrived in Washington today for a series of conferences, dealing largely with the party's finances. They will be guests at the White House during their stay.

WEATHER FORECAST

WASHINGTON, Oct. 25.—For Kentucky: Fair tonight; Friday, partly cloudy and somewhat cooler.

FIGHT IN OKLA. HOUSE OVER KLAN

Callahan Thrown Out of Room for Questioning Motives of the Grand Dragon

Associated Press

OKLAHOMA CITY, Oct. 25.—A dozen or more members of the house of representatives attacked Representative Callahan, smashed his chair and threw him out of the room when he declared in a letter arraignement of the Ku Klux Klan that N. C. Jewett, grand dragon of Oklahoma, was dictating the kind of legislation to be enacted in Oklahoma. Just previously the house adopted the eighth charge in a bill of impeachment against Governor Walton, charging him with declaring martial law in Tulsa when no cause, reason or ground existed therefore.

KENTUCKY WOMEN BOOST GOOD ROADS

Club Federation Cooperates to Help Put Over $50,000,000 Bond Issue

Kentucky womanhood has shouldered the task of pulling Kentucky out of the mud, and if the $50,000 000 bond issue is successful at the polls, to the clubwomen of the State will be due a great part of the credit for this wonderful victory, says Eustace L. Williams, Executive Secretary of the Kentucky Good Roads Association, in a message to the Kentucky Federation of Women's Clubs, sent Mrs. Benjamin Bayless, president of the Federation.

More than half of the hundreds of active workers for the bond issue in every country are women, Mrs. Thomas Cleaver of Lebanon being Chairman of the women's organization for the western division of the Good Roads Association, and Mrs. John L. Grayot of Madisonville the Executive Secretary.

Mr. Williams also points out that good roads are one of the five cardinal issues backed by the clubwomen Federation.

The Good Roads Association, with the help of the women of the State, is urging the coming Legislature to pass an enabling act to permit the voters of the State to pass on the Road Issue. It is impossible under the present method of road building to complete the 4,175-mile primary system of highways within the next quarter of a century, while on every side States are passing bond issues and building roads to connect up farm and market.

However, with the passage of the bond issue, the primary system of roads can be completed within five years, making available a hard surface road linking every county seat.

Instead of using the revenue from the gasoline tax and automobile license fees for piecemeal construction of patches of good road, as at present, the gasoline tax and automobile license revenue would be utilized to pay the interest on the bond issue and provide a sinking fund for retirement of the bonds in 30 years.

Under this arrangement the tax rate would not be raised to build the road system, the burden of paying for good highways falling upon the shoulders of the users of the roads.

Experience of other states where bond issues have been voted and good roads built, show that the revenue from gasoline tax and automobile license fees has more than doubled within a short space of time, due to the increased use of automobiles where roads have been made available. Should this result in Kentucky after passage of the bond issue, ample funds would be available annually for the maintenance of the roads.

Building of good roads broadens the life of the farmer, makes educational facilities possible for his children, and gives to him the advantage of contact with his fellow-man, lack of which is responsible to a great extent for the exodus, during past years, from farm to city.

PIEDMONT COOK CHASES WAITER WITH BIG KNIFE

Some commotion was created at the Piedmont hotel last night when George Butler, colored cook, chased Miller Brown, colored waiter, from the kitchen to the dining room with a butcher knife. The latter claims he was able by his superior strength, to avoid serious injury at the hands of his assailant. The trouble started from a petty quarrel. Both participants were arrested and placed in jail last night, charged with disorderly conduct and fined $14.25 this morning.

DENIES CEMENT PLANT MAY NOT MATERIALIZE

J. H. Bartlett, American Association Head, Here Today, Believes Company Seriously Considers This Location

IS PLEASED WITH GREAT PROGRESS OF MIDDLESBORO

Rumors to the effect that the proposed cement plant at Cumberland Gap would not materialize were discredited today by J. H. Bartlett of the American Association. He stated that the company which held the option on the property which is to be developed were now busy constructing a cement plant on Signal Mountain near Chattanooga, and that they would carefully investigate the property here, along with the market conditions and the transportation problem. He said that these factors entered largely into the successful operation of a cement plant. He said also that the present concern has only a short time lease, which would discredit the idea that the company had secured this lease for the purpose of preventing any other company locating here and thus making a rival manufacturing plant.

Mr. Bartlett was much gratified at the progress of Middlesboro. "You could hardly have a more beautiful city, with its wonderful location and its magnificent streets. Another thing which the local people often overlook is the water supply of this city. Not only is the pressure strong and the supply practically inexhaustible, but it is remarkably pure. I think if you would investigate you would find the water is purer here than practically any other place in the country. That is certainly a great asset."

Mr. Bartlett is here with the niece of his first wife, Mrs. M. L. Hill, of Ottawa, Ontario, Canada. Mr. Bartlett spent some weeks at her home in Ottawa this summer, and now Mrs. Hill, with her two children, have come to Anchorage, Kentucky, to live with Mr. Bartlett. This is the first visit of Mrs. Hill to Kentucky, and she is delighted with the section. She stated that on her next trip to Middlesboro she hoped to spend some time in seeing the country. She and Mr. Bartlett will leave the city Friday morning.

CLIMAX CAMP PLANS FOR COMMUNITY XMAS CLUB

Employes of the Climax Coal Co. are now subscribing for the community Christmas tree which is being promoted for children of the camp. The Christmas tree is an annual event of the Climax camp and all the children receive presents. The gifts will be ordered as soon as the money is collected.

FIND NO TRACE OF JAIL BREAKERS

Two Men Who Sawed Out of Pineville Prison Monday Still at Large

No trace has been found of George Hatfield and Ed Hoskins, who broke out of the county jail at Pineville on Monday morning, according to information received from there this afternoon.

The men sawed off part of a door and made their escape through the opening in broad daylight. Some one is said to have given the alarm but thinking it a joke, no heed was given it by jail employes until the men were beyond capture.

Hoskins was held on charges of larceny while Hatfield was charged with liquor law violations. Jailer Jim Howard has offered a small reward for their apprehension.

WIDOW OF LATE DR. J. C. BAILEY, DIES TODAY

Associated Press

FRANKFORT, Oct. 25.—Mrs. Eliza Brown Bailey, widow of the late Dr. Joseph C. Bailey, prominent United States Army surgeon and daughter of the late Judge Mason Brown, died here today after a brief illness.

LOUISVILLE LIVE STOCK

Associated Press

Cattle, 300, best strong, others slow, unchanged; hogs; 2300, steady, to one quarter lower, tops 76; sheep 200, steady, unchanged.

EAST END STREET WORK HALF DONE

Humbard Positive Contract Will Be Finished by Last of Month If Weather Is Good

The East End street work is about fifty per cent completed, J. L. Humbard, who has charge of the work, declared today, adding that if they had good weather the construction forces would finish it all by the last of November, opening East Cumberland avenue and Fitzpatrick Avenue up to the public.

Work has gone on steadily on the East End streets during the splendid weather that has characterized this month, and the construction is already up to Fitzpatrick Avenue on one side. Undoubtedly, before the bad weather of winter proper, Tennessee and Virginia will have access to Middlesboro over one of the smoothest and best roads in the county.

TOURISTS RETURNS MORE THAN TAXES

Colorado Has 650,000 Visitors in 1923 Who Spent on Average $70 Each

DENVER, Colo., Oct. 25.—Colorado's convention of the great outdoors during 1923 brought a total registration in all scenic centers and resort hotels of 4,500,000 tourists who spent $45,500,000 while in the state, according to reports issued on the basis of estimates received by the Denver Tourist Bureau. Eliminating duplications of registration, in auto and rail travel, the expenditures are computed on a basis of 650,000 visitors who remained an average of seven days and spent $10 a day, making $45,500,000.

In Overland Park, the city's auto camp, 61,500 motorists had registered when the gates closed Oct. 15. They came from every state and many foreign countries, and showed an increase of one-third over last year's total 45,577 campers. Throughout Colorado, 247 auto camps accommodated 643,015 motorists during 1923, against 213 camps with 511,412 autoists in 1922.

Colorado is grateful. Its scenery and climate brought returns that exceeded by $3,500,000 the $42,000,321 which taxpayers paid into the state treasury during 1923. Improvements in camps, greater attention to road repair, better highways and the expansion of free information and illustrated lectures, are planned by Colorado communities for the 1924 convention of the great outdoors in the Colorado Rockies.

FALLEN TREE, NOT OWL, IS K. U. ALIBI THIS TIME

The K. U. current had a two hours' vacation yesterday afternoon, but, strange to say, the trouble was not caused by an owl. According to reports some men were cutting down trees near Colma, damaging the transmission wires. Repairmen were dispatched to the scene of the damage and the service was resumed at 4:20 in the afternoon.

PROMINENT HARDIN CO. BANKER GUILTY

Admits Embezzlement of Funds—Sentenced to Three Years in Penitentiary

Associated Press

ELIZABETHTOWN, Oct. 25.—A. L. Cox, former cashier of the Glendale Banking company, prominent socially and reputed to be one of the wealthiest citizens of Hardin county, pleaded guilty in circuit court here today on a charge of embezzlement and the jury fixed his punishment at three years in the penitentiary. He was immediately sentenced and sheriff Fife planned to take him to the Eddyville penitentiary today.

CONGOLEUM COMPANY DECLARE 300% DIVIDEND

Associated Press

New York, Oct. 25.—The Congoleum company today declared a 300 per cent stock dividend.

United States possesses 40 per cent of the world's railroad mileage.

Slaughtering and meat packing is the largest manufacturing industry in Iowa.

New Jersey leads the middle Atlantic states in the value of its fisheries.

EXPECT SERIOUS TROUBLE NEAR BERLIN TONIGHT

Communist Assembling in Strong Forces—Rhineland Republic Proclaimed in Number of the Smaller Towns

FIVE POLICE, 2 COMMUNISTS KILLED AT AIX LA CHAPPELLE

Associated Press

LONDON, Oct. 25.—A central news dispatch from Berlin today says that large bands of communists are marching on Berlin and police had rushed out to intercept them. Dispatches say communists are also assembling in very strong forces in the Lichtenberger district of Berlin, but police had surrounded the whole neighborhood and allow nobody to pass their cordon. The message adds serious trouble is expected tonight.

Associated Press

COBLENZ, Oct. 25.—The Rhineland republic proclaimed at the former quarters of the American army ten miles from here today. It was also proclaimed at Ahweiler, Sedan, Birel and Gnistenheim, all small towns.

Associated Press

AIX LA CHAPELLE, Oct. 25.—Five policemen and two communists were killed in a clash here today.

SELF-APPOINTED PAUPERS IMPOSE ON PUBLIC HERE

Self-styled paupers continue to prey upon the public of Middlesboro and the generosity of citizens who contribute promiscuously without investigating the case lend encouragement to continuance of the practice of fake mendicants.

An example of this recently came to the attention of the Salvation Army. A man, claiming that he needed an operation which would cost about $100, circulated a petition and succeeded in collecting about two-thirds of this amount. He declined to give the Salvation Army officer the name of the physician who had advised the operation and, a few days later, declared he was well and would not need medical attention.

It is the wish of the local relief organization that all such cases be referred to them before any money has been contributed. A surprisingly large number of applicants of this kind are fakes as is ascertained by investigation.

U. S. ARMY SETS OUT TO RECRUIT 16,00 MEN

Sixteen thousand men are needed by the United States Army, according to E. R. Wilson, Recruiting sergeant. These vacancies exist on account of the large number of soldiers whose terms have expired. It is expected that this number be recruited soon, however, and that within the next month only previous service men will be taken.

The following men have enlisted at the local office during October: Luther Blanton, Jess Blanton, George Bowling, Dempsey Carter, Hary Biggs, Steve Rickett, Andrew Clark, Glenn Gilbert, Tom Malone and Alvis Adams.

PSEUDO RECRUTTING OFFICER IN MIDLESBORO THIS WEEK

A man giving the name of James D. Miller of La Follette has been in Middlesboro the past few days posing as a representative of the army recruiting service. Sergeant Ernest Wilson, local army recruiter, says that the man has no connection with the recruiting service and that he is not even in the military service.

The stranger's motives are not clear there being no way whereby money could be obtained by such pretense. He is well dressed, wearing entire civilian attire.

LINDSEY GIVEN LIFE SENTENCE

Man Found Guilty of Murder of Wealthy Farmer, Whose Widow He Married

Associated Press

BARDSTOWN, Oct. 25.—Joe Lindsey was sentenced to day to life imprisonment for the murder of Charles E. Vance, wealthy farmer, shot to death in bed at his home near here in August, 1921. Lindsey married Mrs. Vance.

A THOUGHT

Riches certainly make themselves wings; they fly away as an eagle toward heaven.—Prov. 23:5.

This yellow slave
Will knit and break religions: bless the accurs'd:
Make the hoar leprosy accurs'd: place thieves,
And give them title, knee and approbation,
With senators on the bench.—Shakespeare.

THE DEMOCRAT PARTY AND ROAD IMPROVEMENTS

Vance Armentrout, the Courier-Journal's editorializing special news writer, has turned his attentions from the need of higher taxation in Southeastern Kentucky to the need of fewer roads there. In an extensive story, under a streamer headline, in Monday's Courier-Journal, he exposes in no uncertain terms the plan of the state highway commission to finish the road connecting Southeastern Kentucky with Central Kentucky and so with the rest of the world.

The road from Barbourville to Pineville is the only part in this line which has been completed. Bids are now being advertised for the links between Barbourville and Corbin and other unfinished road in Rockcastle and Jackson counties. These bids are to be let in the near future unless the Democrats, through their news columns and otherwise, can prevent it. Armentrout does not quibble in his charges or hide the purpose of his article.

If this attack is made in such terms as these in Kentucky's largest newspaper, what do the people of this section think the Democrats have planned for them in further improvements if the affairs of state are turned over to them for the next administration? Do the Southeastern Kentucky people who are planning to vote the Democratic ticket think there is much in store for them from a party which objects so vigorously to the meager amount of improvements which this section has received during the last three years, after the decades of lavish improvements in Central Kentucky, under Democratic administrations?

This road, connecting Southeastern Kentucky with the rest of the world, so to speak, is the greatest single thing ever proposed for this section. By means of it an outlet is planned for the people of this rich, but undeveloped section, hungry for intercourse with people beyond the mountains. By the same road an inlet is allowed for outsiders to visit this section, to take advantage of our wonderful resources to enjoy our glorious scenery and the mountain climate, and to become acquainted with the people of this section whose one hundred per cent Americanism and sturdy worth has become almost a maxim in the whole country.

To block this road now would be a travesty. To prevent further improvements here would be to nip in the bud this remarkable land which has only begun to unfold. Surely this is not merely a sectional concern, but one for the whole state. And surely no thinking citizen will cast his vote at the November election unless he knows the stand the administration he favors will take.

A COURTESY CAMPAIGN

The American Automobile Association has started a movement for more courtesy among drivers of cars. Pointing out that a certain fraternal bond exists among motorists, the secretary of the association remarks that accidents occur in every place where the public meets, but they are minimized by mutual tact, courtesy and forbearance.

Why couldn't not be the same with automobiling? The largest public gathering in the world is that of automobile drivers on the highways of the nation, and certainly the same courtesy that prevails in other walks of life should prevail here. A few softly spoken words when a minor accident does occur would often turn a potential lawsuit into a lifetime friendship, for there is nothing that draws men together like a willingness to assume the blame, even when one knows he is not entirely at fault. The automobile courtesy campaign now being launched will go further toward making the roads and streets safe for both motorist and pedestrian than all the laws that could possibly be evolved.

An experienced motorist was heard the other day giving some advice to a beginner. "In case of accident," he said, "always begin abusing the other fellow without delay. Cuss him out. Tell him it was his fault. It's the only way. He'll do you if he can. You get your complaint in first." If every motorist acted on this principle there would be small hope of the success of the courtesy campaign. Fortunately few are so boorishly and narrowly minded. But automobile courtesy need not be restricted to polite words. There are acts of common courtesy in the driving of a car that would add immensely to the general comfort, confidence and safety.

Motorists who fail to dim their lights on meeting another car at night are a source of much danger. So are those who neglect to signal when about to turn a corner or to slacken speed. The driver who invariably insists on his right of way is another potential author of accidents. The motorist who refuses to treat others with courtesy, at the cost of only a few seconds of time, never stops to think he may need the same courtesy himself some day. Courtesy of deeds as well as of words is the need of the hour.

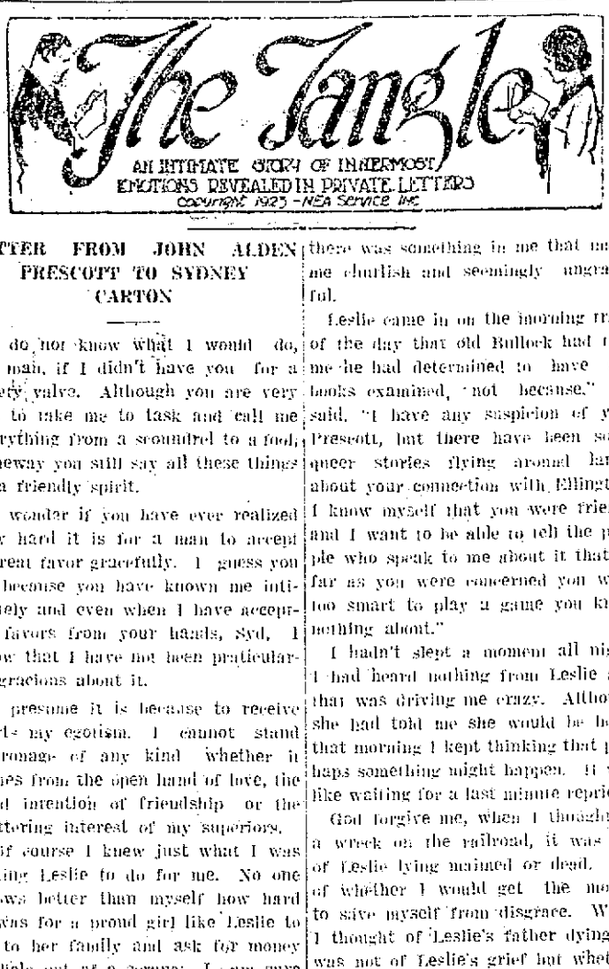
WASH ROOM



LETTER FROM JOHN ALDEN PRESCOTT TO SYDNEY CARTON

I do not know what I would do, old man, if I didn't have you for a safety valve. Although you are very apt to take me to task and call me everything from a scoundrel to a fool, someway you still say all these things in a friendly spirit.

I wonder if you have ever realized how hard it is for a man to accept a great favor gracefully. I guess you do because you have known me intimately and even when I have accepted favors from your hands, Syd, I know that I have not been particularly gracious about it.

I presume it is because to receive hurts my egotism. I cannot stand patronage of any kind whether it comes from the open hand of love, the kind intention of friendship or the flattering interest of my superiors.

Of course I knew just what I was asking Leslie to do for me. No one knows better than myself how hard it was for a proud girl like Leslie to go to her family and ask for money to help out of a scrape. I am sure she did not care about the mere financial part of the transaction. I knew the thing that hurt her, and hurt her in a way I am afraid I shall never be able to heal, was that she had to confess to her family that her husband did not measure up.

And because I knew that I didn't measure up, Syd, I was particularly nasty and arrogant in making a point of her doing this contemptible thing. Then, when she went—when I made the woman I love devotedly do something that must have nearly broken her heart—and she came back to me and laid the money in my hand, still there was something in me that made me churlish and seemingly ungrateful.

Leslie came in on the morning train of the day that old Bullock had told me he had determined to have the books examined, "not because," he said, "I have any suspicion of you, Prescott, but there have been some queer stories flying around lately about your connection with Ellington. I know myself that you were friends and I want to be able to tell the people who speak to me about it that as far as you were concerned you were too smart to play a game you knew nothing about."

I hadn't slept a moment all night. I had heard nothing from Leslie and that was driving me crazy. Although she had told me she would be home that morning I kept thinking that perhaps something might happen. It was like waiting for a last minute reprieve.

God forgive me, when I thought of a wreck on the railroad, it was not of Leslie lying maimed or dead, but of whether I would get the money to save myself from disgrace. When I thought of Leslie's father dying, it was not of Leslie's grief but whether she, under the circumstances, would be able to ask for the money I needed so sorely. I think I became almost hysterical toward morning and when I heard a taxi come up the quiet street toward our apartment house I found myself alternately swearing and praying in turn. And that moment, Syd, I knew myself for the first time and I was aghast at the knowledge.

TOMORROW—John Prescott continues the letter—Baby is neglected.

Chicago Motor Club has a cycle squad to pick up broken glass.

Adventures of The Twins

By Olive Roberts Barton

NO. 24—GOODBY TO S QUEALY-MOO LAND

"Another adventure!" cried Nick.

"Well!" said Farmer Brown one day as he walked through the cornfield. "It's getting pretty late in the fall and I think this corn is dry enough for husking. Tomorrow I'll hitch Charlie and Bob to the big wagon and we'll take down the cornshocks and haul the corn in. Then I'll invite all my neighbors over and we'll have a husking-bee and my wife will have cider and doughnuts for them."

Farmer Brown was talking to himself, but three pairs of sharp little ears heard every word he said.

Nancy looked sad. "If Farmer Brown takes away all the cornshocks, he'll take your house, too," she said, "and where will you live this winter, Mister Dodger?"

"Why, I'll go and rest for a spell," answered the little fairy fellow cheerfully. "I'll go back to the Fairies' Hotel in Fairyland where most of the faries stay when they aren't working. I haven't seen my friends for a long time and it'll do me good to have a good visit with Mister Tatters and Mister Sky-Bow and Mister Tingaling and Mister Scribble Scratch and all the others I haven't seen for so long."

"But what will the Squealy-Moo people do without you?" asked Nick. "Will they be safe?"

"Sure!" answered the little fairyman, stuffing his old corn-cob pipe into his pocket. "It's only when they are out of doors they need to be looked after so much. When they are indoors, as they will have to be mostly from now on, they are safe. Crazy Calf can't eat poison weeds, and Frisky Colt can't squeeze through the orchard fence and make himself sick on sweet apples. And Mister Hawk has gone south for the winter, I guess, for I haven't seen him lately; so the chickens and ducks won't be in danger, either."

"Well, if you go, we'll go, too," declared Nancy. "I mean we can't stay in Squealy-Moo Land by ourselves."

"I was just coming to that," nodded Mister Dodger with a mysterious smile. "Useful people are never out of a job, my dears."

He reached into his pocket and pulled out a letter. "I found this on the table when I came in today," he said. "Silver Wing, the Fairy Queen's messenger, must have brought it while we were out."

It was addressed to the Twins, and read:

"Dear Twins:

"Please come to my place as soon as you get this. I want you to go south to Dixie Land.

Lovingly yours,
"The Fairy Queen."

"Another adventure!" cried Nick.

"I told you so!" said Mister Dodger. "Come! We'll say goodby to our friends here and be going."

Berton Braley's Poem

A DOMESTIC PLEA

My dear, you know my heart is
You know I love you fearfully.
And were it necessary to,
I'd die for you right cheerfully;
I know, too, that you'd gladly go
To Timbuctu and back for me,
But just the same I beg you, "Oh,
I wish you wouldn't pack for me!"

I know the job I do is punk,
And that I'm not meticulous.
I know I chuck things in the trunk
In fashion most ridiculous.
I know with what exceeding art
My stuff you'd fold and stack for me.
But darling, kindly have a heart—
I wish you wouldn't pack for me.

The job you do is fine, no doubt,
But when I must begin again
To put back what I've taken out,
I cannot get things in again.
You put my duds so well in place,
So neatly do you fold 'em all,
I have to buy another case
When I start back, to hold 'em all!

I throw things in my trunk? Oh yes,
I know your work is snappier.
But just the same and none the less
My own way leaves me happier;
Though much disorder I display,
Don't excuse your knack for me,
Just let me go my frowsy way—
I wish you wouldn't pack for me!

She Ought to Know

Maid—A gentleman to see you, madam.

Her Mistress—How do you know he's a gentleman?

Maid—Because he said, "Beg pardon" before he kissed me.—Kinema Comic, London.

That Accounts for It

Mother—Johnny, there were two pieces of cake in the pantry. Now there is only one. How's that?

Johnny—Well, ma, it was pretty dark, so I expect I didn't see the other piece.—Puck.

Little Brother's Real Mean

Visitor—I heard you've a new brother. What's his name?

Elsie—We don't know yet. We can't understand a word he says.—Selected.

Oh, Now We Know

Turkey has gone in for golf. Orders for golf balls, golf sticks and golf bags are pouring in on English manufacturers. Now we can see some reason for their wearing knickers.—Washington Daily News.

Autumn in The Garden

Like winds that blow from far, sequestered seas
With song of lovely waters gray and vast,
And undiscovered islands of the past,
Dim in the mists of vanished destinies,
The Autumn winds bring murmuring melodies
From pale horizons where the great hills massed
Like monks for rites of evening chant at last
Farewell to summer and her mysteries.

Deserted are the aisles where beauty walked
In glowing raiment wrought of leaf and bloom
And listened to the tales of bee and bird.
Alone, where roses with the summer talked
Or watched the weaving of her fragrant loom.
Pause now the feet of memory, unheard.

—Arthur Wallace Peach.

Mrs. Calloway Guest of Mrs. Hugh Allen

Mrs. John Calloway of Knoxville, president of the presbyterial, arrived this morning to be the guest of Mrs. Hugh Allen until after the groups conference, to be held at the First Presbyterian church here tomorrow, is over

Miss Hallie Wise Hostess at Dinner

Miss Hallie Wise was hostess last night at her apartment on Cumberland avenue to eight guests at a six-course dinner. The tables and rooms were attractively decorated to carry out the Hallowe'en idea.

Choral Club Rehearsal

The regular weekly rehearsal of the Middlesboro Choral club will be held tonight, Thursday, at 7:30 in the Sunday school room of the Presbyterian church under the directorship of Prof. H. R. Carr of Knoxville. The scores for the chorus, "He Watcheth Over Israel," from Mendelssohn's oratorio, Elijah," have arrived and will be rehearsed tonight with the other numbers being rehearsed.

Christian Endeavor Social Planned

The Christian Endeavor of the First Presbyterian church will have a Hallowe'en social at the church tomorrow evening. Miss Eddie Young is in charge of plans for entertainment. The purpose of the social is to raise money to educate Fred Underwood at Lynn Bachman school. The entire church is invited.

Mrs. H. H. Sprague Hostess at Bridge

Mrs. H. H. Sprague entertained at bridge yesterday morning at her home on Arthur Heights. Her guests were: Mrs. F. P. Scales, Mrs. H. H. Overton, Mrs. Jacob Shultz, Mrs. J. P. Edmonds Mrs. Wilbur Hollingsworth. Mrs. C. W. Bailey, Mrs. H. E. Verran, Mrs. R. W. Baker and Mrs. H. E. Dingss.

SISTER Mary's KITCHEN

Nuts

If you like rather unusual little dishes for luncheon, these recipes using nuts may interest you.

There is one secret in the cooking of nuts. They should be blanched before adding to any concoction. The skins are indigestible in almonds aside from having an unpleasant taste. English walnuts, pecans and hickory nuts have very thin skins that are unnoticeable in the raw nuts but develop a strong taste when cooked. Even if you don't take time to slip the skins, pour boiling water over nut meats, let stand five minutes, drain and dry between towels. Put in a hot oven for a few minutes to crisp. English walnuts are easy to slip the skins, but hickory nuts and pecans take more time.

By blanching the sweetness of the nut is enjoyed without that slight tongue burning so often experienced after eating nuts.

You will like "nuts on toast." It is "different" and could be used in the chafing dish for a little evening supper or a - o'clock luncheon.

Nuts on Toast

One-half cup English walnuts, 2 cups canned tomatoes, 2 tablespoons flour, 1 cup chicken stock, 1 egg, 1-2 teaspoon salt, 1-8 teaspoon pepper, 1-2 cup whipping cream, paprika.

Heat tomatoes and stock to the boiling point, and simmer until tomatoes are reduced to a pulp. Rub through a sieve. Make a perfectly smooth paste of flour, salt, pepper and a little water. Reheat tomato and stock mixture. When boiling stir in flour paste. Cook until mixture thickens. Remove from fire and stir in egg well beaten and nuts. Pour over triangles of crisp hot toast. Drop a small spoon of whipped and salted cream on each piece and serve very hot.

Nut Croquettes

Two tablespoons butter, 1 teaspoon minced onion, 1 tablespoon flour, 1-2 cup milk, 1-2 teaspoon salt, 1-8 teaspoon pepper, 1 cup nut meats, 1 cup mashed potatoes.

Put butter and onion in a sauce pan. When butter froths, remove onion. Sift flour into butter. Add milk, stirring constantly, and cook until thick and smooth. Add nuts and potatoes and mix thoroughly. Spread on a platter to cool. Shape in small balls or cylinders, roll in corn meal and fry in deep, hot fat until a golden brown. Drain on brown paper.

The use of nuts in pie crust is very unusual. Peach or apple pie is delicious with this kind of crust.

Nut Crust

One-half cup finely ground English walnuts, hickory nuts or pecans, 1 cup flour, 1 teaspoon salt, 4 tablespoons lard, cold water.

Rub lard and flour together with tips of fingers. Add nuts and mix thoroughly. Add water as in ordinary pie crust. Roll and shape for lining the pie dish. Roll and shape covering. Dot the upper crust with bits of lard before putting in the oven. This gives the crust a flaky look. The crusts should be thoroughly baked and appetizingly browned.

OOH LA LA!

And she won only third prize! An old contest was staged in Paris recently—to find the most perfectly formed cupid bow mouth. Mlle. Alice Pernet took down third honors.

PRESBYTERIAN WOMEN MEET

Rev. E. E. Gabbard of Knoxville Will Address Group Conference at 2 P. M. Tmorrow

A group conference of the Presbyterian women of Pineville, La Follette and Middlesboro will be held at the First Presbyterian church here tomorrow in two sessions, one at 10 a. m., and the other at 2 p. m. Lunch will be served at noon in the church dining room for the visitors. The program for the day follows:

Morning Session

Mrs. W. S. Anderson presiding

10:00—Song.
Devotionals, Miss Mary Heath of Pineville.
Message from the Presbyterian president, Mrs. John L. Calloway of Knoxville.
Report of Synodical meeting. Miss Lena Rollins of Pineville.
Echoes from Montreat Sunday school conference, Miss Nell Putnam of Pineville.
Vocal Solo, Mrs. C. I. Nisbet, of Pineville
Talks of presbyterial secretaries of causes.
Standard of Excellence, Mrs. John L. Calloway.
Adjournment.
12:00—Lunch served in church dining room.

Afternoon Session

Miss Lena Rollins, Pineville, presiding
2:00—Song Service.
Prayer.
Address: "Challenge of the Century," the Rev. Elmer E. Gabbard, pastor of the Fifth Avenue Presbyterian church of Knoxville.
Special music.
Worthwhile things in our Auxiliary, members of each of the churches.
Young People's Work, Mrs. H. A. McCamy.
Echoes from Abingdon Young People's Conference, Miss Lucille Short.
Question Box, Mrs. Calloway.
Adjournment.

Allen Is Elected Road Body Head

Louisville Man Succeeds W. C. Montgomery Who Quit When Selected for State Post

Louisville, Ky., Oct. 15—The Executive Committee of the Kentucky Good Roads Association, at its meeting held on October 8, in this city, for the purpose of electing a president, chose Arthur D. Allen of Louisville, who is head of the Mengel Company, and is recognized as one of Louisville's most able and successful business men. Mr. Allen has long been an active worker for the cause of Good Roads in this State. He succeeds William C. Montgomery, the Elizabethtown banker, who was chosen president at its convention March 27 last, and who has just resigned from that place because he was recently nominated by William J. Fields, Democratic

ARTHUR D. ALLEN.

candidate for Governor, to be chairman of the State Highway Commission in the event of Mr. Field's election.

Speaking in favor of the choice of Mr. Allen, Mr. Montgomery said: "In my opinion the Association is most fortunate to secure such a man to direct its affairs at this time, when it has such a great work just ahead of it. Furthermore, as I have found, from the demands which have been made by this work upon me, that it is highly desirable for the president to reside where he can be constantly in close touch with the state headquarters."

The position of Director of Organization for the Western Division was created, and the president empowered to name this officer, who will have headquarters at Madisonville and will work under the direction of Mrs. John L. Grayot, Executive Secretary of the Western Division.

The resignation of J. C. Utterback, the Paducah banker, from the Executive Committee, was announced, this step having been necessary on account of business reasons.

The appointment of J. K. MacDonald, Jr., of the law firm of Bradshaw and MacDonald of Paducah, to fill this vacancy was made.

"THE BAT" HERE TUESDAY NIGHT AT THE MANRING

"The Bat," which is booked for the Manring theatre on Tuesday, October 20, has established a record for success never before equalled by a play of any character in this or any other country. It is, without one single exception, the greatest success ever presented on any stage. And that statement is made with full knowledge of the records for popularity that have been compiled by other theatrical attractions from time to time during the past half century and more. "The Bat" is the one play that persons see over and over—and there is none other like it.

"The Bat" was written by Mary Roberts Rhinehart and Avery Hopwood. It was presented under the painstaking management of Wagenhals and Kemper. It is played by a company of excellent reputation in the theatre, each of whom was carefully chosen for the role assigned.

Figures, after all, often tell a story better than any thing else. In the case of "The Bat" they are almost unbelievable.

"The Bat" has been seen by more than 6,000,000 persons and has played, to date, to more than $9,000,000. The history of the theatre fails to record a single instance in any country where a record in any way comparable, has been recorded for a play's success in a like period of time.

CLIMAX SUNBEAM ASS'N INSTALL CHAPTER AT ATLAS

A number of members of the Sunbeam association of the Climax Coal Co. went to Atlas Friday night and installed a similar organization there. The purpose of the Sunbeam association and the one recently organized is to create a spirit of good fellowship among the miners and to provide an emergency fund for their use.

NO MORE PLACES OPEN FOR LADIES' NIGHT TONIGHT

There are no reservations open for Ladies Night Kiwanis club tonight, according to announcement made this morning by the chairman of the evening. The hotel Cumberland can not accommodate more guests than those who have made reservations by Wednesday. Because of this it is asked that no guest come expecting to find reservations tonight, unless he had previously planned to attend.

K. U. Visitors Yesterday

William Ehler, representative of the Edison Electrical Appliance company of Chicago, was here yesterday. W. B. Jones, of the merchandise department of the Kentucky Utilities company, placed orders with him for the electrical goods for the season. C. L. Crosby, representative of an electrical fixture company, was also a business visitor at the K. U. Both men left for Big Stone Gap, Va., this morning.

MAYOR OF LYONS ADMIRES AMERICAN BUSINESS WOMEN

Copyright, Keystone View Co.

M. EDOUARD HERRIOTT, Mayor of Lyons, France

M. EDOUARD Herriott, Mayor of Lyons, France, who arrived in this country recently and is making a speaking tour of the principal cities, has registered his admiration for the American business woman in a letter to the American Committee for Devastated France. Mayor Herriott had the opportunity of meeting many American business women when they visited Lyons as Good Will Delegates last summer.

"Through you I am venturing to offer my greetings to all those noble American women," said the letter to the American Committee, "who are earning their own living through their own efforts. I have the greatest admiration for the American woman in business. She is dignified, diligent and friendly. I am certain those women will be of great aid in developing between our two peoples closer material, intellectual and moral relations. They seem to have inspired our French women, who, more and more, are helping and even replacing the men lost. One million five hundred thousand dead in a population of 40,000,000 is an abysmal loss.

"HERRIOTT."

VET FINDS TWO WIVES AFTER BLOW TURNS PAGES LIFE BACK FIVE YEARS

By Associated Press.

ST. CLOUD, Minn., Oct. 25.—The blow on the head that knocked Arthur E. Whitney, Federal prohibition agent of Minneapolis, under the wheels of a beer truck at New Munich, Minn., Wednesday night fracturing his skull also turned the pages of his life back five years, it was revealed here last night.

Whitney was overseas twenty-seven months during the World War, was gassed three times and a victim of asphasis. His life after the last gas attack was a blank.

After the war he landed in New York and obtained a job as a Federal prohibition agent. There he met a young woman known as Mrs. Ann Whitney, who has lived in St. Paul with him for the last two years.

When Whitney, at a local hospital, regained consciousness last night for the first time since the blow Wednesday, standing beside the bed was Mrs. Luella Whitney, who married him in Grafton, N. D., in 1912, and who bore him two sons.

He said he knew nothing of Ann Whitney, nothing of the baby soon to arrive, nothing of the almost complete divorce proceedings between himself and Luella and nothing of how he was hurt.

Whitney had a faint idea that he had been a Government dry agent, however. He asked his wife how the boys were apparently not realizing the passage of time.

Physicians say Whitney will recover.

LABOR'S WEAPON WILL BE MONEY, NOT STRIKES, SAID

WASHINGTON Oct 25—Emulating the old advice to fight fire with fire, organized labor has begun to fight capital with capital

This is the opinion of Richard M Boeckel labor economist, whose recent book, Labors Money, presents the first authoritative account of the development and growth of workers cooperative banks

With this new weapon in the hands of labor Boeckel foresees the day when strikes will be resorted to in settling labor controversies as the medieval crossbow in armed affairs of today

As the labor banking movement continue to expand during the next few years, Boeckel says it will work a revolution in trade union methods Labor will depend less and less upon withholding manpower to strike and more and more upon the strategic use of the workers money power

Workers' Banks

Within the short space of three and a half years there have been established 15 workers cooperative banks in widely scattered industrial centers Their aggregate resources approximate $50 000,000

No less than 20 new workers banks are in process of organization all of which will be in operation within the next 10 months

This labor banking movement has not been developed on a basis of theory nor has it been promoted by propaganda It is in outgrowth of the condition of the times and the experience of American workers

Should this policy of fighting capital with capital be followed by workers generally,' Boeckel adds 'the country will witness an enormous expansion in both the numbers and resources of labor banks during 1924 At the present rate of growth, deposits in the workers banks should aggregate $100 000 000 by the beginning of 1925

Outsiders Welcome

In this movement organized workers are for the first time inviting the cooperation of the general public The banks are open to non worker depositors, and favorable interest rates are paid on deposits These banks already control very substantial amounts deposited by men and women outside the trade union movement

The policy on which all labor banks operate Boeckel says, is one of refusing loans for any but productive purposes' This, he declares directly serves the public interest in that it seeks to stimulate the production of useful goods and to make for increased

RICHARD M BOECKEL

production and lower prices without degradation of the condition of the worker

The continued progress of this new movement promises not only revolution in trades union methods, he declares, but forecasts significant changes in the organization of American industry As this progresses, the strike will come to be regarded as a relic of industrial barbarism

L. M. U. TEAM PLAYS MARYVILLE FRIDAY

Four of Best Men Injured in Scrimmages—Interesting Game for Tomorrow

HARROGATE Oct 25—With four of their best men suffering from injuries received in recent scrimmages the Lincoln Memorial University will leave for Maryville Friday morning, October 26, where they will clash with the Highlanders that same afternoon The Braves have not wasted the last two weeks Every minute spent on the field has been utilized by Coach Gorrell in strengthening the weak places which the game with Cumberland College showed up and the line up for Friday's game promises to be formidable enough to promise excitement for the Highlanders And the Braves are looking forward to the most interesting game of the gridiron year when they lock helmets with the Maryville Highlanders the team that surprised many fans by holding the University of Tennessee eleven to a draw in this years memorable battle A number of L M U boosters will accompany the Braves to Maryville

The following players of the Varsity will leave Harrogate for Maryville on Friday morning Turner Albright N Brown Pettigrew W Garrett, Wilson Jones, Lipscomb, Hudson Hale, Manning, Cureton b Brown Ellis Williamson Sawyer, Holsberry, Simmons and Grizzell

DAWSON PLEDGES AID TO UNIVERSITY

Tells Students That G O P Has Promised Funds for Womens Building

Associated Press

LEXINGTON, Oct 25— When I am Governor of Kentucky I will see that the school which pointed me to the paths of ambition will no longer suffer because of inadequate classrooms teaching force and appropriations to care for the teaching force Charles I Dawson, Republican nominee for Governor, said in an address at the University of Kentucky yesterday

Mr Dawson is pledged to a womans building for the university which is a great need, and I believe that the Legislature will give the institution what it needs, as former inadequate appropriation has been due not only to limited finances but also to the ignorance conditions,' General Dawson said

All but five Kentucky counties are represented here by students, and everyone in the State should know what the university is doing There are now enrolled here 1 800 candidates for degrees the freshman class is larger by 150 students than that of Princeton University and equals that of Harvard During the last ten years the number of students has increased 09 per cent with no corresponding increase in teaching force and class room facilities The university has not reached the heights to which it can attain because it has not had adequate provision for its needs

Sentiment can be created to make the University of Kentucky the equal of any in the land, if students returning to their homes will be a lesson and leader in their communities to enshrine the university in the hearts of all the people making it typical of the hearts, hopes and aspirations of all Kentuckians I want a committee of one in this audience to write me the night of November 3 that my university has whipped Centre, and the night of November 6 I will be a committee of one to wire President Meyer that a former student of the university is Governor of Kentucky

Your Health

Hygienic Aids in Reading

The right kinds of habits in reading must be formed by school pupils, in order that eye strain and fatigue of the ocular muscles may not produce disturbed vision and other eye troubles This may mean glasses and eye trouble throughout later life

The position and careful adjustment to light conditions when reading cannot be too strongly emphasized Do not try to read with poor light, during the day time or at night When ever possible the light should be nearly on a level with the top of your head or just above it and should illuminate over the left shoulder

See that your book is held at the proper angle of about 15 or 20 degrees and in such a position that the top and bottom of your book page will be equidistant from the eyes Otherwise much eye strain and muscular accommodation will severely tax the eyes and produce drowsiness and dim vision

The proper distance for normal reading is about 14 inches from the eyes Usual book type is clearly legible to the normal pupil's eyes at a distance of 20 inches Close type a more than this distance may indicate the beginning of hyperopia (farsightedness)

To avoid strain in bed in the recumbent position and with poor light In this position there is a strong pull or strain on the eye muscles of downward rotation, while the head is usually bent so that it encourages ocular congestion

Hold the head erect at all times when reading with the book on the level with the eyes This will insure relief from ocular congestion It will also help to prevent one from acquiring a tendency to round shoulders and a contracted chest

If You Have a Pain In The Back, Beware The Ad of The Quack!

Thousands of persons are afflicted from time to time and many others almost constantly, by what is commonly called backache It is a sign to the theme of the patent medicine barkers You are almost convinced by their literature in spite of your own good common sense that something is surely the matter with you There are times when certain wasting diseases severe attacks of colds or downright weariness of body cause pain in some degree or other, in your back Careless, indifferent, slouching posture will often cause back muscles to weaken and ache to such an extent that some mechanical support is necessary

But don't get scared or imagine every time you get a crick in your back or the nerves, muscles and ligaments seem to be so tired you can hardly stand, that something is surely wrong It is usually the strain of the sacro iliac joints (the joints of the hip bone and sacrum, at the base of the spine) that causes a large number of backaches and not rheumatism sciatica (whatever that is) kidney trouble or locomotor ataxia

Pains in the back, lumbago rheumatism and misery may be due to bad sitting or posture In correct standing learn to acquire a poise so that your line of gravity will be nearly a straight line The body should be held erect with heels about six inches apart and toes straight forward

The weight bearing line should pass from the hips, through the knee cap, shin, ankle and between the second and third toes If you learn to stand and sit in a real hygienic posture, you will lessen your trouble of backache and back strain to a marked degree

Ignorance and slavish following of fashions and footwear often cause severe backache by the wearer being compelled through foot strain and pinching pains to walk in a most un

STILL SMILES

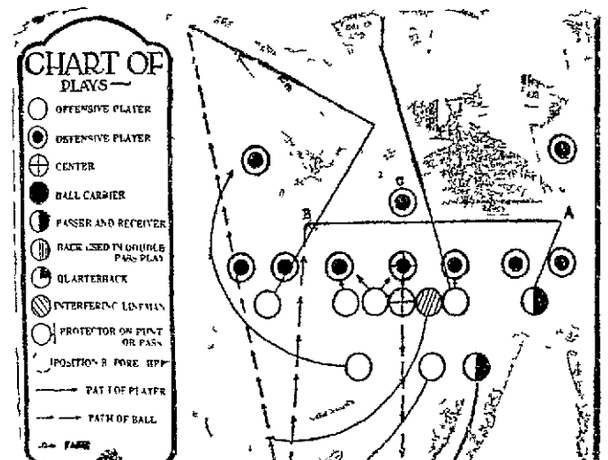
Miss Tutha Emery is credited with being the most arrested woman in the world." Her fault is in leading picketing parties and sending literature not in accord with government wishes She's again in the national capital

PLATTER PLAY IS GRAY WITH AGE, YET MUCH USED BY MANY TEAMS

The usual thrower makes believe he is about to throw holding the ball up and back of him somewhat as a waiter holds a platter and another back, running around to the rear of him, switches the ball for the purpose of encircling the drawn in ends and tackles of the defense or actually allowing to a designated receiver

The direction of the run from A to B is determined by the position of defensive backs

I can well imagine that some of my readers have smiled broadly when they have seen the good old platter play included in this series Just the same, if it is executed correctly and at the appropriate moment, it might break up many a game I have seen it work havoc with the best of them



FORWARD PASS AFTER TRIPLE PASS OUTLIN UPSETS OPPOSITION

The drawing shows the forward pass after a triple pass, but it may be made after a double pass

Either end or a back may be the receiver.

The right guard comes out as a delayed duty

After each backward pass is made the back runs hard

This may be a very long pass, and children not where the defense are driven in on all sides and not charging as they should, probably late in the game

GOOD SOAP FOR LESS THAN TWO CENTS A POUND

Make It At Home By This Easy Process—Takes Less Than 30 Minutes

Nowadays, more and more women are doing as their mothers did and are making their own soap If you have never tried it you will be surprised to see how easy it is to make good soap, soft soap, hard soap or floating soap, just by using kitchen scraps and waste grease together with a can of Merry War Lye the safe and sure soapmaker

In the old days when soap was made by the boiling process it took nearly all day to make a kettle of soap Now it is hardly any work at all—requires no boiling—takes less than 30 minutes Saves you money and gives you all the pure, clean soap you need for kitchen, laundry and all household purposes

You will find simple directions for soapmaking on the label of every can of Merry War Lye—also many other recipes such as how to make lye hominy, how to soften water, how to make clothes washing easy, how to brighten cooking utensils, etc

Merry War Powdered Lye is also a wonderful cleaner and purifier for use about the home, barn, chicken house and outhouses. Comes in a convenient can with revolving sifting top that can not come off, cannot get lost, recloses tightly and preserves contents. It is economical to buy and easy to use.

Ask your dealer for Merry War Lye —be sure you get "Merry War"—the lye that has made good for 33 years.

MERRY WAR LYE
"Makes Mighty Good Soap"

What About Them?

There's no distress like widowhood! Particularly is this true where no money or estate is left for her surviving days.

Do you want to leave your widow, your mother or your children in that position? Are you going to impose on their inexperience?

Come to us and let's talk it over. Let your Life Insurance policy be your protection. We have many interesting plans at moderate costs.

G. H. Talbott, Chairman Kiwanis Ladies' Night, Plans Feature Entertainment

G. H. Talbott will be chairman of the Kiwanis Club ladies 'night to be held in the grill room of the Hotel Cumberland, and he has planned a novel type of entertainment for this time, including a style show with live models and a pageant to be put on by the Girl Scouts, honor guests for the occasion.

The style show will be put on by A. D. Campbell and Bro., H. E. Veeran and Co., and G. H. Talbott Co. Miss Helen Burnett and Miss Virginia Stiles will be models for the first firm, Misse Thelma and Dorothy Thompson for the second and Miss Mary Skeen and Miss Vivian Salmon for the last. Dresses, coats, suits, and millinery in all the latest modes will be shown.

In addition to the Girl Scout pageant, Miss Lillian Seay will sing a solo. Other feature enterrainments are also planned.

Prizes will be given as follows: First, Warren P. Rash; second, F. R. Whallin; third, A. C. Shelburne, fourth, R. L. Kincaid; fifth, J. S. Wright; sixth, G. H. Talbott.

KENTUCKY-TENNESSEE DISTRICT SHOWS GROWTH

Since the last issue of the Kiwanis Magazine two clubs have received charters at the hands of District Governors Charles C. Gilbert of the Kentucky-Tennessee District, Jackson and Pikeville, Ky. They are now officially a part of the international organization.

Mr. Gilbert has recently made an extended trip through Eastern Kentucky and reports the clubs in the district in flourishing condition. The forty-eight clubs in this district have added an objective of their own to those recognized officially by the International organization, namely, good roads. In speaking of this objective, Governor Gilbert says: "Each Kiwanis Club has a Good Roads Committee and in some way each of these committees is creating local sentiment for road construction and extension. What we want is to see that each Kiwanis town is connected with every other Kiwanis town, or a county site to county site roadway."—Kiwanis Magazine.

CAPT. STEINHOUR TO MEETING OF SALVATION ARMY LEADERS

Capt. F. J. Steinhour, local Salvation Army executive, will attend the annual meeting of Salvation Army leaders of the eastern district at Washington November 3. Thomas Estill, district commander, will preside over the meeting at which 2300 officers are expected. During the five days of the convention President Coolidge and Secretary Hughes will address the visitors. Capt. Steinhour will be accompanied by Mrs. Steinhour.

Police Court News

Sam Rend, colored, charged with drunkenness, fined $14.25. D. M. Bingham, charged with being drunk and disorderly, fined $24.25.

Mongolia and Manchuria do an enormous trade in dog skins.

One-fourth of the chewing gum made in the United States comes from New York City.

FULKERSON SAYS SERVICE REQUISITE

Furniture Business Tabulates Reasons Why Customers Quit Them

The following editorial from the last Kiwanis Magazine is by Roe Fulkerson:

While figures do not lie, liars do figure.

A furniture concern worried over the fact that two thousand people with whom it had done business had disappeared from its books. Determined to find the cause the firm wrote a strong personal letter to each person, inclosing a stamped reply, asking a frank expression of why he had stopped dealing in this store.

The replies tabulated showed:

1. Indifference of sales people	470
2. Errors in service	180
3. Forcing of substitutes	180
4. Tricky methods	180
5. Delays in delivery	170
6. Over-insistence of salespeople	160
7. Discourteous treatment	140
8. Delay in giving attention	130
9. Tactless handling of customers	110
10. Disorderly stock	90
11. Ignorance concerning goods	60
12. Unwillingness to exchange	40
13. Dissatisfied with quality	10

Business man adding to item 1 the other items, of inefficient employes will see that most business problems are only problems of the right employe, properly instructed in loyalty to the concern which pays them the money on which they live.

Money will not get this loyalty. High salaries are not enough. It takes real personal interest in employes, it takes kind words and good working conditions. In brief, it takes the principles of Kiwanis. Take them from the weekly luncheon back into the business and there can never be such a list as in here printed.

Teacher Was Right

Father—Did you tell your teacher I helped you with your French exercises, Tommy?

Tommy—Yes.

Father—And what did she say?

Tommy—She said she wouldn't keep me in today because it didn't seem fair I should suffer for your ignorance.—Exchange.

First class mechanics, Fauleoner's garage.

NOTICE, KNIGHTS OF PYTHIAS

Knights of Pythias district meeting will be held at Lynch, Ky., Saturday, October 27, 1923, in Castle Hall of Victory, Lodge No. 250, K. of P. A cordial invitation is extended to all the Knights, a beneficial program has been arranged and a splendid time is assured.

AUBREY LEECH IS INVENTOR OF NOVEL DISPLAY ADVERSISING

The following item from the Kansas City Journal concerns Aubrey B Leech, formerly of this city, a son of Mr. and Mrs. H. Leech and brother of Mrs. E. W. Hambright and Mrs. J. I. Givens:

An invention which, it is said, will have revolutionary effects on indoor and outdoor display advertising has been brought to Kansas City by Babe Kaufman, assistant manager of Convention hall, and is on display in the Hotel Muehlebach.

Aubrey B. Leech of Los Angeles is the inventor. The invention produces the effect of "motion advertising" and the finished product is the result of four years' experiment

Produces Curious Effect

Mr. Leech calls the idea "scenic action display." Some of the sets now on exhibition in the motel show a colored painting of a train, the wheels and ground under them moving swiftly by; an automobile line rolling along; a cup of tea or coffee steaming in appetizing manner, and a couple sitting before a fireplace, the flames of which leap up from the grate while, through a window, the rain is seen coming down in sheets

"In this," explains Leech, pointing to the painting of the couple before the fire for example, "a local bank already has approached Mr. Kaufman for an advertisement reading 'Save for a Rainy Day.'

The action of the display is what attracts the eye and compels attention. We can reproduce any moving object."

Method Is Simple

The display work on the power of a 50-watt lamp. By simply placing behind a picture an electric light bulb within a transparent cylinder of isenglass upon which are painted various meaningless stripes, the effect of life and color is produced when the cylinder revolves.

The revolving of the cylinder is caused by the heat of the bulb.

The effect of fire burning a volcano smoking, water flowing, waterfalls and other amazing results already been produced.

EWING NOTES

A party went on a hayride to Flatwoods Saturday night, where they attended "The Old Tyme Singing Skule." and ice cream supper. Those in the party were: Misses Willa Maye and Gelorgia Hoskins, Pattie Fugate, Julia Mae Thompson, Pearl Jordan, Ann Gibson, Mrs. Jessie Smith, Paul Robbins, Nat Richmond, Rhea Harris and John Richmond.

George V. Shelburne of Pennington Gap was a business visitor Wednesday.

Mrs. Ray Fugate of Gibson Station visited friend in Ewing Monday and Monday night.

W. A. Wyggal, county superintendent of schools, was here from Jonesville on Tuesday.

Miss Mae Anderson was the guest of Miss Dorothy Watkins of Hubbard Springs Monday night.

Miss Ellen Oaks, who is teaching at Woodbine school near Caylor, spent the week-end at home here.

Mrs. Ora Hart Avery of Richmond, who is state supervisor of home economics, spent Tuesday at L. C. I.

Dave Donovan of Middlesboro was here Wednesday.

Mrs. Jessie B. Smith was in Middlesboro Thursday.

The Home Economics class of L. C. I. entertained Tuesday with a six o'clock dinner in honor of Mrs. Ora Hart Avery, state supervisor of that work A delicious meal was served to the following guests: Mrs. Avery, Miss Anna Mae Hobbs, Miss Ethel Hamilton, Prof. and Mrs. W. P. Jones, W. A. Wyggal and G. C. Frazier.

Mr. Gibson of Gibson Station was a business visitor in Middlesboro on Tuesday.

BALKAN

Mr. and Mrs. Tom Jones and daughter Kathleen are visiting relatives in Williamsburg.

Mr. and Mrs. G. L. Birch and children were week-end guests of relatives in Pineville.

Lorenso Camaporni, who is attending St. Mary's College, St. Mary's, Ky., visited home-folks the first of the week.

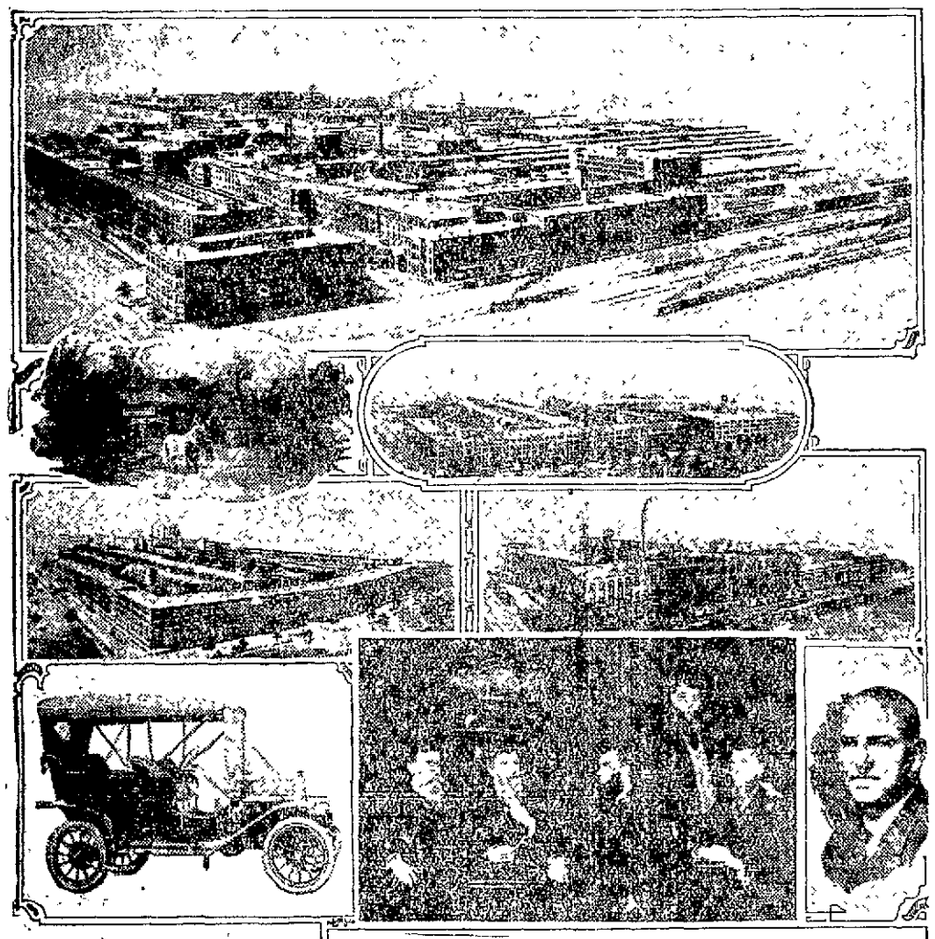
Seventy-First Birthday Anniversary is Celebrated by Studebaker at South Bend



President Erskine Awards Medals to 1470 Employees Who Have Served Corporation From Five To 20 Years and Longer.

Of This Number 220 Have Been With Studebaker From 20 To 60 Years.

THE seventy-first anniversary of the Studebaker Corporation was observed at South Bend, Indiana, with entertainment at Springbrook Park to which the families of 12,000 Studebaker employees in South Bend had been invited.

During the afternoon President A. R. Erskine presented medals to employees for continuous, loyal service to the Corporation for periods of five, ten, fifteen or twenty years. More than 1,100 employees received bronze medals for five or ten years service; 150 were awarded sterling silver medals for 15 years, and 220 had gold medals pinned upon them for more than 20 years employment by the House of Studebaker. The last group included those employees who have been with the Corporation from 20 to 60 years. They were given lively applause by their fellow workers as they received the honors.

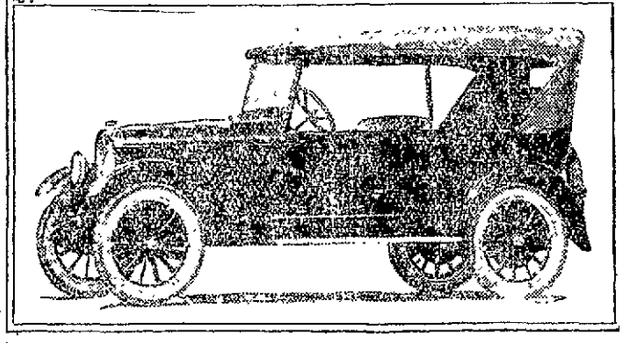
Service medals for members of Studebaker's Detroit plants will be awarded there shortly.

A high-class vaudeville program during the afternoon and a mammoth fire works display in the evening, a feature of which was an illuminated replica of a Studebaker Light-Six, furnished entertainment for the thousand of employees and their families.

Remarkable Growth

Although the automobile industry is the largest of the nation, it is so young that traditions are not generally associated with it. The Studebaker Corporation is a notable exception. Certainly no company in the industry—and few companies in any industry—are as rich in tradition as Studebaker.

For seventy-one years the name Studebaker has been linked, not only with every improvement in transportation, but with American industrial development as well. Since its inception in 1852 as a cross-roads blacksmithing and wagon-building shop, Studebaker has expanded to one of the greatest manufacturing institutions in the world, with $90,000,000 of actual net assets, including $45,000,000 of plant facilities and a production capacity of 150,000 cars annually. Studebaker has 3,000 branches and dealers in the United States and is widely represented in all foreign countries.



Top picture shows Plants 1 and 2 of the Studebaker Corporation, South Bend, Ind.

Second row—At the left, is the Studebaker Shop and home, Ashland, Ohio, 1835. At the right are Plants 5 and 10, Detroit.

Third row—Plants 3 and 4, Detroit and Plant 7, the Canadian Division, Walkerville, Ontario.

Fourth row—An early model as contrasted with a 1924 model Studebaker Light-Six touring car shown below. The five Studebaker Brothers who pioneered the business. A. R. Erskine, president, the Studebaker Corporation.

Henry and Clem Studebaker commenced operations in South Bend in 1852 with two forges and a cash capital of $68. They built two wagons their first year, one of which was in daily, constant use for 33 years, a record that indicates the ideal of quality upon which the business was founded. Three other Studebaker brothers, John M., Peter E., and Jacob F., joined the firm; the first, John M., adding to the assests $8,000 which he had earned during the "gold rush" to California.

The fame of Studebaker vehicles spread rapidly. In 1868 the firm name was changed through incorporation, to Studebaker Brothers Manufacturing Company, and a few years later the first branch house was opened at St. Joseph, Mo., to handle the trade of pioneers who were crossing the country in large numbers. The business prospered and expanded accordingly during the following years until Studebaker became the world's largest producer of horse-drawn vehicles.

Builds "Horseless Vehicle"

It was inevitable, therefore with the advent of the automobile in the late 90's that the company would become interested in this new method of transportation and its possible bearing upon Studebaker's business future.

As early as the spring of 1897 Studebaker built and experimented with a "horseless vehicle", as it was described in the directors' minutes, and bodies were built in 1899 for electric runabouts made by another company. Studebaker actually began building electric runabouts and trucks in 1902 of which twenty were sold in that year, and a total of 1841 were constructed up to 1912, when it abandoned electric machines.

The company started production of gasoline-propelled automobiles in 1904, and during the next seven years built and sold 2461 passenger cars and trucks, the chassis of which were built by another company.

The management perceived the necessity of embarking into the business on a large scale commensurate with its position in the vehicle industry, and sufficient to employ the facilities of its large plants and sales organization throughout the world.

Moderately-priced automobiles to be built and sold in large quantities were decided upon and Studebaker, in 1910, acquired complete ownership of the business, plants, assets, and trade names of the Everett-Metzger-Flanders Company of Detroit, which had been manufacturing machines of this character.

Makes Unusual Records

During its dramatic rise in the automobile industry Studebaker has established many records. Perhaps the most remarkable of these was in 1921, a year of business depression, when Studebaker enjoyed the biggest business in its history, up to 1922. The sales of Studebaker cars were 29 per cent greater than in 1920, notwithstanding that the total number of cars sold of all other makes except Ford was 45 per cent less then in 1920. Sales during 1922 surpassed 1921 by 65 per cent and the record for 1922 was exceeded in the first eight months of 1923.

In its 71 years Studebaker, of course, has undergone many changes, yet in one respect it has remained unchanged. The old ideals of quality, value and dependability of product, and integrity have endured down to this day and remain the inspiration of those who control the destinies of Studebaker.
